

FREO STONE PAVING RANGE

Soils Ain't Soils Bunbury is the agent for Freo Stone quality pavers. Since 2004 we have been providing the South West with their paving contractor top rated products.

Freo Stone manufactures its products using only the highest grade raw materials. Innovative levelling, mixing and waterproofing techniques ensures the ingredients and colours are evenly infused throughout the entire thickness of the pavers. Featuring the thermal properties of Western Australian limestone, these Perth manufactured paver range offers lasting strength, versatility and unmatched cool to the touch paving options. But don't just take our word for it, ask your paving contractor what they think of Freo Stone Paving!
An honest brand built on fact and proven over time.

Note: Freo Stone pavers and products are only available for order from Bunbury Soils Ain't Soils for the Greater Bunbury Region.

All orders put through Perth will be re-directed back to us.

Note: Orders of Freo Stone ON PALLET PRODUCTS attract a packing fee of \$1 per metre or lineal metre measurement by Freo Stone for country customers which will be included in our quote price.

A refundable pallet fee of \$20 is charged on each pallet. Please ensure you bring your original sale docket when returning your pallet so the deposit can be refunded.

CLEANING AND SEALING YOUR FREO STONE INVESTMENT

Whilst most of Freo Stone products do not require sealing, we simply recommend you engage a professional for cleaning after the installation and construction process. If you do choose to seal Freo Stone products, the following products have been found to be successful.

Bondall - Natural finish sealer

For Bondall sealing tips <http://www.bondall.com/total-paving-stone-and-concrete-care/paving-concrete-sealer/>

- Products used suitable for Freo Stone Limestone product range:

- Spirit Sealers Pre-seal and Natural Paving (Best option)
- Spirit Sealers Uniseal / Ceramic Stoneseal or Dampseal

- Products available to purchase suitable for Freo Stone Limestone product range:

- West Coast Solvent Based Satin (Best option)
- West Coast Water Based Satin / Solvent Satin

Please be sure to seal your products with the sealers specified by Freo Stone.

Please note that **Crommelin sealers are not compatible** with Freo Stone products and use will void warranty.

If you choose not to seal your product and do suffer an irreparable stain the beauty of individual pavers means you can simply contact Freo Stone for info on how to pull out and replace.
